

Original manuscripts written by the Apostles were meticulously copied and then the original manuscripts destroyed. ☒ Then those copies of the original manuscripts were meticulously copied and then destroyed ☒ to retain purity back to the original manuscripts. Not all copied manuscripts were destroyed. Ten's of thousands (portions and fragments) have survived to this day. □

Erasmus compiled the *Textus Receptus* from many surviving manuscripts (copies of the original manuscripts). □ Despite the number of manuscripts there are minimal doctrinal differences between them, only minor punctuation and letter variances.

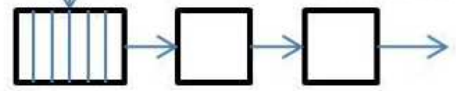

Martin Luther used the *Textus Receptus* for his German Bible. The Tyndale, King James, Bishops, Geneva, Matthews, Coverdale Bibles are all translations from the *Textus Receptus* into English.

Origen obtained a copy of original manuscripts and restructured it (added, removed, and replaced words, sentences, passages, chapters, and letters) to make it fit with his Gnostic belief, fabricating a six column heresy document to be used by the church, thereby corrupting any church which used his Gnostic based* Bible.

Eusebias converts Origen's six column Gnostic bible into a single Hebrew-Greek Gnostic based Bible. (Alexandrian Bible)

*Gnostic "ideology" is from the Hermetic tradition (cont.) "That which is Below corresponds to that which is Above, and that which is Above, corresponds to that which is Below, to accomplish the miracles of the One Thing." (The Emerald Tablet of Hermes Trismegistus)

Jerome converts Eusebias' Gnostic Bible (Origen's Gnostic bible) into Latin for use by Constantine and the Roman Catholic Church.

The Roman Catholic Church persecutes anyone not using their heresy (Gnostic based) bible, excommunicating and executing anyone who uses or translations from copies which are faithful to the original manuscripts.

All contemporary Bibles are translated from a Gnostic corruption of the Word of God. Which make them no longer *the* Word of God.

*Gnostic "ideology" is from the Hermetic tradition: "The Hermetic tradition was both moderate and flexible, offering a tolerant philosophical religion, a religion of the (omnipresent) mind, a purified perception of God, the cosmos, and the self, and much positive encouragement for the spiritual seeker, all of which the student could take anywhere." (Tobias Churton *The Golden Builders: Alchemists, Rosicrucians, and the First Freemasons.*)

Westcott and Hort, who remained faithful to their Catholic (Gnostic based) belief, headed up the revising of the Greek source for the English translations, making the *Textus Receptus* subject (and therefore inferior) to the Gnostic (heresy) sources: Vaticanus B, Sinaiticus Alph, etc. They succeeded in corrupting the Greek source for all modern translations, thereby making all contemporary translation subject to the heresy (Gnostic based) bible of Origen.
